INTERVIEW SUMMARY

Sir:

An In-Person Interview was conducted on April 9, 2008 between Applicant's undersigned representative, Scott Richardson, and Examiner Tran. During the Interview Applicant's representative and Examiner Tran discussed:

- An overview and brief discussion of the invention in the 09/751,520 application.
- Discussion of the art cited in the pending rejection, including U.S. Patent 6,288,716 to <u>Humpleman</u>.
- Discussion of the claim terms, including:

"wherein the user interface data describing the at least one user interface function does not comprise a whole of the user interface of the remote device to thereby minimize resources of the information appliance utilized in configuring the information appliance to display the at least one Serial No. 09/751,520

Docket No. GTW-0103(P1651US00)

representation" (part of claim 1, as pending before the accompanying

Amendment).

Applicant's representative provided suggestions for new claim features and claim

amendments to more clearly distinguish the present invention from the prior art.

Examiner Tran suggested canceling the pending claims and drafting a new claim set that

is more readable and even more clearly describes the present invention.

In response to the discussion of the Interview Applicant's an Amendment is being filed in

conjunction with this paper canceling all pending claims (claims 1-43) and adding new claims

44-70 intended to conform to Examiner's Trans suggestions.

In view of the foregoing, it is respectfully submitted that the application is in condition

for allowance. However, in the event there are any unresolved issues, the Examiner is kindly

invited to contact applicant's representative, Scott Richardson, by telephone at (571)970-6835 so

that such issues may be resolved as expeditiously as possible.

Respectfully submitted,

Scott Charles Richardson
